UI Components

ARCHITECTURE

Technical Stack

Frontend

- Next.js + TypeScript
- Tailwind CSS
- GSAP Animations

Backend

- Supabase Postgres
- Supabase Auth
- Forminit

Mapping

Leaflet
Map rendering

OpenStreetMap
Location data

Media

- Cloudinary

Client-side compression

Infrastructure

- Cloudflare Workers
- OpenNext

Pro Tip

Image Optimization

All photos are resized and compressed client-side before upload to minimize bandwidth and Cloudinary transformation costs.

Bandwidth Saved

STRATEGY

The Roadmap

01

Phase 1: Foundation

CORE EXPERIENCE

Establishing the core platform with essential discovery and review features.

- Authentication
- Bakery Listings
- Reviews & Maps
- Image Uploads

02

Phase 2: Social

Deepening community engagement and content moderation.

- Leaderboards
- Moderation

03

Phase 3: Intelligence

Scaling with AI features and business partnerships.

- AI Detection
- Notifications

Future Unlockables

Post-MVP features planned for platform expansion and enhanced engagement.

Chicken Puff Support
Expanding category coverage.

AI Puff Detection
Automated quality assessment.

Gamification System
Points, badges, and hunting.

Bakery Owner Portal
Analytics and dashboards.

Regional Snacks
Localizing the experience.

"More than just puffs."
